*Estimate based upon NJDEP and PADEP Enforcement information on 3 facilities.

Note: Tonnage information was converted to scrap tires using the 20 pounds per tire conversion factor.

Note: In regard to those scrap tires not accounted for in the above, it is believed to be a function of several factors, including:

1. Incomplete and inaccurate reporting. Scrap tires handled at temporary storage sites operating pursuant to an exemption from the recycling center approval process are required to report tonnage information to the NJDEP. Compliance with this requirement is not uniform;
2. Non-applicability of the underlying assumption regarding scrap tire generation; and
3. Illegal disposal.
